- Regular lectures and completion of syllabus on time students faces difficulty during exams to understanding the syllabus and teachers have to take small tests after every lecture as a revision.
- Good
- It's all good
- No
- No
- No.
- no suggestions. Interest generated by the teacher is good
- Happily
- Go slow
- SYLLABUS SHOULD COMPLETE IN OFFLINE MODE AND IF POSSIBLE THEN TRY TO REDUCE EVENTS AND FOCUS ON COMPLETION OF SYLLABUS BECAUSE AT ONE SIDE TEACHERS AND STUDENTS GET BUSY IN EVENTS AND OTHER SIDE SYLLABUS REMAIN. SO IN ENDING TEACHERS COMPLETE SYLLABUS QUICKLY OR BY EXTRA LECTURES ON ONLINE MODE WHICH SOMETIMES NOT PREFERABLE AS IT SHOULD BE.

IN CASE OF SYLLABUS THEN THEORY PART IS GOOD AND TEACHERS REALLY MAKE INTEREST WHILE TEACHING BUT IT CAN BE ENHANCE BY SHOWING PRACTICAL OBJECTS, LOCATIONS, MEETING BY EXPERTS THROUGH GUEST LECTURES. ETC. CAN DONE FOR BETTER SYLLABUS TEACHING.

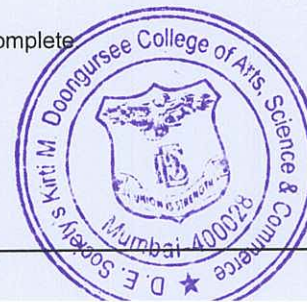

YES IT'S TRUE THAT MANY MORE PART OF SYLLABUS MAY NOT USEFUL AS REQUIRMENT OF FUTURE, AS TECHNOLOGIES UPDATE SYLLABUS SHOULD BE UP TO DATE.
 SYLLABUS SIZE CAN LITTLE REDUCE AS IT COVERS VERY MUCH THEORIES INSTEAD OF THAT VARIOUS PRACTICAL KNOWLEDGE THROUGH VARIOUS FIELD VISITS CAN PROVIDE
 TEACHERS TEACHING IS SO GOOD MEANS LITERALLY I LIKE TO ATTEND EVERY LECTURES OF EVERY TEACHING BECAUSE EVEN SYLLABUS IS THEORETICAL THEN ALSO TEACHERS TEACH VERY NICELY BY GIVING VARIOUS EXAMPLES AND IMPLEMENTATION IN LIFE. I WILL NOT MENTION ANY NAME BUT EVERY TEACHERS ARE MASTER IN THERE SUBJECT AND ABLE TO MAKE INTEREST IN THERE SUBJECT.

- No
- Very nice syllabus
- The should maintain fair an friendly relation with students
The should always be in supportive with the students
The teacher should not be partial to anyone
- Punctual
- Syllabus is very lengthy, could reduce it a bit. Teaching methods could be more interactive. Measures to complete the syllabus on time.

- None
- .
- Syllabus: The college can review and update the syllabus regularly to ensure that it is relevant, comprehensive, and aligned with the latest industry trends and academic standards. The syllabus should be designed in a way that promotes active learning, critical thinking, and problem-solving skills.

Teaching: The college can encourage instructors to use a variety of teaching methodologies, such as case studies, group discussions, and real-life examples, to make the learning experience more engaging and effective. Additionally, instructors should be trained in the use of technology and digital tools to facilitate online learning and blended learning.

Syllabus Completion: The college can ensure that the syllabus is completed on time by providing a structured schedule and monitoring the progress regularly. The instructors should be accountable for completing the syllabus within the stipulated timeframe and ensuring that students have a clear understanding of the concepts covered. In case of any delays, the college can provide additional support or resources to help students catch up.

- The syllabus is very vast and most of the times not linked with the other chapters in the same paper. For example, in botany sem 4, the paper 3 unit has bio tech, biostatistics and bioinformatics along with horticulture which seems very off topic.
In zoology in sem 4 the paper of types of eggs, human reproduction also included pollution and it's types which have no relation to each other at all.

Moreover, some portion was repetitive like cell and it's components which has been in the portion for so very long. Sem 3 chapter like ethology was completely new and quite interesting

- Question bank on time
- Include topics related to technology, and industrial demanding languages, latest softwares.
- Accept dbms and python, other subject lab practicals were just performing questions. Actual implementation in real world and staring with small examples is necessary as not all students were from coding background from class 12. These things should be kept in mind while teaching a new programing language.

- I have noticed that some teachers may have differing teaching styles, which can sometimes present challenges for students in their studies.

The past two years have been particularly challenging for us. While the first year was impacted by the pandemic, the second year was good enough, but we did struggle with understanding the teaching methods.

PLEASE LOOK FOR IT.

- Syllabus was difficult in some cases but the syllabus was covered properly.
- Should be less focus on theoretical and more on practical.
- avoid ppt teaching
- Understand students problem and try to understand their mental strength
- No
- Syllabus not complete before time
- Teachers should focus on making students understand the topic with deep knowledge without making it boring or too hard to understand. The syllabus is okayish, there are teachers who just read out whats written on the screen and repeat that and expect the students to understand the topic they should focus on teaching it in a better way not just read whats written there.

- Need extra focus on weak students who, doesn't atten practical or attend practical but waek in that's subject practical!
- The teachers here in CS mostly focus on theory knowledge and are only concern with completing the syllabus practical implementation and knowledge is way more less focused.A week left before the examination and still some teachers are not yet done completing their syllabus.Practical journal submission is more important than actually performing and understanding the practical.Teachers are not that co-operative except few.My only request to the principal would be to make the teachers understand the correct definition of Teaching and Education as our future depends on them.At the end No hate to any teacher just my personal opinion

- Overall Teaching is Good
- Regarding practical subjects it would be better if we solve 3 to 4 sums of each type to understand it in more better way ..
- The Syllabus was completed really fast it was difficult to understand
- Teachers should explain the topics with more examples
- Nothing
- My advice is this try to write syllabus that are as brief and focused as possible but that communicate the nature of your course of students in clear and understandable manners.
- No suggestions

- Good
- A proper lecture timing
- Syllabus should complete atleast 2 weeks before
- Need more real life case study
- Syllabus should be completed before 15 days of examination so that students gets the time to study. Beacuse there is a lot of syllabus to complete we can understand but it should be completed before 10 or 15 days so that students gets the time for revision.
- Please change the faculty of accounts in our department and make the faculty that can actually teach permanent instead of making permanent that faculty which doesn't even know how to teach
- NA
- Nice teaching
- At least syllabus should be completed 15 day before our exam get start
- .

- There is a lot of gap in between the lecture so the link of the syllabus automatically breaks so the only suggestion would be to increase the lecture and timing and also increase the faculty for the students' convenience.
- Kindly change the faculty of Master's in arts/economics. Not even a single professor is interested in teaching. Not even a single lecture is conducted and not even 20% syllabus is completed truly. When we ask for lectures they ask us to keep quiet and don't ask for lectures. If we keep asking and requesting they will leave the official WhatsApp group and show "Drama". The professor herself has asked us to leave the college if we want regular lectures. Don't know what the faculty is doing and how busy they are that they are not even able to conduct a single lecture. And don't know what the management is doing that they are not questioning the professors about the attendance. Worst experience as a student and will never recommend Kirti College to anybody. Don't know if these feedbacks are going to be read or not, if the course really matters to the college please look into the matter. It's a request to the principal to kindly look into the matter and solve it as soon as possible. If the faculty is not able to conduct lectures due to their busy schedule kindly appoint some new faculty there are so many good teachers in the market. And if MA economics doesn't matter to the college and it's just for the sake of degree and money kindly inform the students at the time of admission only that we are not going to conduct lectures and the course is just for the sake of degree. Please do not waste someone's hard-earned money.
. Thank you!
- All Good
- No
- Need to bring more faculty for MA students at least..because of which we are getting less knowledge no regular lecture are taken.. our economics department have no daily or rare lectures also so need to look to improve faculties staff Thank you

- There are no accessible materials for economic masters for a visually challenged person that is a reason I have not attended lectures and I talk to sir but he also was not able to help me.
When I ask the teacher for these PDFs sir's reply to our subject is not replying at all.
Teacher's name was Chandramohan Joshi sir
