

# Aavishkar: Igniting Research & Innovation at Kirti College

**Aavishkar** is a unique State-level Inter-University Research Competition initiated by the **University of Mumbai** and the **Governor of Maharashtra**. It is designed to cultivate a culture of research and scientific inquiry among students across all disciplines.

At **Kirti M. Doongursee College**, we pride ourselves on providing a platform where students can transform their academic knowledge into impactful solutions. Through Aavishkar, our students move beyond the classroom to engage with real-world problems, presenting their findings to a panel of academic and industry experts.

---

## Objectives of the **AAVISHKAR**

The Research Development and Aavishkar Committee at Kirti College is dedicated to fostering a spirit of discovery. Our core objectives include:

- **Talent Identification:** Recognizing students with a natural inclination toward research and providing them with specialized mentorship.
  - **Capacity Building:** Organizing workshops and seminars to train students in research methodology, data ethics, and academic writing.
  - **Interdisciplinary Collaboration:** Encouraging students from Arts, Science, and Commerce to collaborate on projects that solve complex, multi-faceted problems.
  - **Skill Enhancement:** Developing students' presentation, communication, and analytical skills to prepare them for both high-level competition and professional careers.
- 

## Key Activities

To ensure our students are well-prepared for the Zonal, University, and State levels, the Committee conducts the following activities throughout the academic year:

- **Orientation Sessions:** Introductory seminars for students to understand the competition categories (Humanities, Commerce, Pure Sciences, Agriculture, Engineering, and Medicine).
  - **Internal Screening Rounds:** Mock presentations and poster exhibitions where students receive constructive feedback from faculty experts.
  - **Mentorship Programs:** Pairing students with dedicated faculty supervisors who guide them from the abstract submission stage to the final model or poster presentation.
  - **Expert Guest Lectures:** Inviting researchers and past Aavishkar winners to share insights on "Value-Based Innovation" and Intellectual Property Rights (IPR).
- 

## Expected Outcomes

Participation in Aavishkar offers benefits that extend far beyond the competition day:

- **Academic Excellence:** Students gain a deeper, practical understanding of their subjects, often leading to better performance in University examinations.
  - **Critical Thinking:** Participants develop a habit of questioning, analyzing, and synthesizing information—skills essential for the modern workforce.
  - **Enhanced CVs:** Success at the University or State level is a prestigious addition to any student's portfolio, significantly aiding in higher education applications and job placements.
  - **Innovation Mindset:** Students are encouraged to file for patents or start their own ventures through the college's **Innovation and Incubation Cell** based on their research findings.
- 

## Join the Research Movement

Are you ready to be the next innovator? Whether you have a breakthrough scientific idea or a unique social study, Aavishkar is your stage.

### Contact the Committee:

Visit the **Research Development Committee** office or speak to your Departmental Head to begin your research journey today.

## Vision for the Future

At Kirti College, Aavishkar is more than a competition; it is a movement towards building a "Value-Based Innovation" ecosystem. We encourage our students to look beyond the trophy and focus on how their research can contribute to society, sustainability, and the nation's growth.

**"Research is creating new knowledge."** – Join us in our quest for excellence and let your ideas change the world.
